

NCI 2023

April 25-26 in Stockholm, Sweden

SAVE THE DATE!

Welcome to the Nordic Cardiac Imaging (NCI) meeting 2023!

Nordic Cardiac Imaging (NCI) is organising meetings with lectures from Nordic experts, international opinion leaders and specialists in the different cardiac imaging modalities. NCI 2023 is a pre-meeting to the Swedish Cardiovascular Spring Meeting.

The purpose is to give state of the art lectures on the latest advances, evidence based application of imaging in daily clinical practice, and interactive panel discussions about specific clinical cases. Scientific posters will also be presented. Abstract submission will be open.

Sessions:

- Chronic coronary syndrome; How to investigate according to the current guidelines
- Valvular heart disease from an imaging perspective
- Best thesis from the National Societies
- Imaging in right ventricular disease
- Systemic disease; When imaging is the game changer of treatment
- Multimodal imaging in arrhythmia

We are looking forward to welcoming you in Stockholm in 2023!

On behalf of the organising committee NCI2023

Ellen Ostfeld (Chair)
