### Recent Advances and Future Perspectives in Catheter Ablation of Atrial Fibrillation

Josef Kautzner MD, PhD, FESC  
Director of Heart Centre,  
Institute Clinical and Experimental Medicine, Prague  
Professor of Medicine,  
Charles University Medical School, Prague  
Czech Republic

His clinical interest is focused mainly on cardiac arrhythmias (especially catheter ablations of complex arrhythmias such as ventricular arrhythmias in structural heart disease) and cardiac resynchronization therapy, electrocardiography, and imaging.

Universities in collaboration with Finnish Cardiac Society
